TO: All Supervalu Enterprise Own Brand Vendors

SUBJECT: SGS Audit Program

February 27, 2007

The foundation of the Supervalu Own Brands program is to consistently deliver high quality products that meet or exceed our customers' expectations. In the continuous effort to maintain the quality and consistency of Our Own Brand products, Supervalu has partnered with SGS, a world class auditing company. Together, Supervalu and SGS have created an audit process to evaluate the production facilities of new and existing vendors.

This new company-wide SGS audit program is intended to replace any existing legacy Supervalu or legacy Albertsons audit program previously required and is designed to assess and rate vendors using a qualitative rating protocol. This audit process will be implemented for all Own Brand manufacturing facilities and/or contact facilities and is required on an annual basis. The cost to the vendor per manufacturing facility is \$1500.00.

SGS will be contacting you to schedule and perform these audits. Please give the SGS representatives and auditors your full cooperation as they begin to implement this program on behalf of Supervalu. Please communicate this information internally as appropriate.

If you have any questions or concerns regarding this new company-wide program, please contact Kim Turner at (208)395-5293 kim.turner@supervalu.com and she can direct you to the appropriate person.

Sincerely,

A handwritten signature in black ink, appearing to read "Michael A. Witynski".
